

## **ECRI Institute**

The Discipline of Science. The Integrity of Independence.

### **SEEKING CLINICAL REVIEWERS**

[ECRI Institute](http://www.ecri.org) is an independent nonprofit that researches the best approaches to improving safety, quality, and cost effectiveness of patient care. We conduct hands-on testing of medical products and devices ranging from sutures, and patient monitors to implants and robotic surgery systems. Our evaluation findings are published on-line for our members.

**ECRI Institute is evaluating *near infrared vein finders* and is seeking volunteers who are experienced with the clinical utilization of these devices to serve as reviewers.**

If you are interested, or for more information please contact:
